

## INTRODUCTION TO VIDEO EDITING

### OVERVIEW

Capturing high-quality video has never been easier, but capturing video is only part of the storytelling process.

During this course you will learn the basics of video editing; how to import and organise your footage and assets, trim clips and add them to a timeline, and how to sweeten audio. You will learn about color correction and grading, video effects and transitions, and more.

### ENTRY REQUIREMENTS

There are no formal entry requirements for this course.
